Sir:

Responsive to the Office Action dated June 6, 2001, please amend the subject application as follows:

In the Specification:

Please replace the specification originally filed with the Substitute Specification submitted herewith.

In the Claims:

1. (Amended) A promotional method comprising:
steganographically encoding a print advertisement to hide plural-bit data therein;
acquiring visible light scan data from the print advertisement and processing [the print advertisement] **same** to extract the plural-bit data therefrom;
using at least a part of the extracted plural-bit data to direct an internet web browser to a web site that provides consumer information related to a product or service promoted by the print advertisement.

2. (Amended) A method of determining consumer response to print advertising, comprising:

steganographically encoding a first print advertisement with first data;
steganographically encoding a second print advertisement with second data;
decoding the first and second data when consumers present the first and second advertisements to [an] **a visible light** optical sensor; and
